

# HOPE COLLEGE

April 26, 2015

To Whom It May Concern:

I have known **Melissa Johnson** for four years here at Hope College as her professor and college supervisor. Melissa is a dedicated, conscientious, and friendly young woman – a talented music educator. She is intelligent and enthusiastic about working with people of various age groups. She is a positive leader among her peers and the young people of our community. She strives for excellence and displays a true passion for life; her energy is infectious.

I believe Melissa will do well with whatever age level she chooses to teach. I think her responsible and respectful nature set her above the norm for students today. It is a real joy to work with Melissa. I am extremely confident that she would be an asset to any school district.

We have been fortunate to have Melissa here at Hope College and I am extremely confident that she would be an excellent hire at any age level.

Sincerely,

Christina M. Hornbach, Ph.D.  
Head of Music Education/Associate Professor of Music
